Education and Culture

**Leonardo da Vinci**

The group of blind and visually impaired people still faces discrimination and disadvantages in the European society, on the labour market and in education and training systems. During the last few years a range of innovative development projects, particularly within the Leonardo da Vinci programme, have been created throughout Europe that, if adequately distributed and utilised, will reduce the barriers in vocational education and training.

It is a central concern of the ValorVIP conference to match the demand for innovative concepts and approaches to reduce barriers with offers, products and results from EU projects.

### **Topics include:**

#### **20<sup>th</sup> September**

- Conditions for a successful integration of blind and visually impaired people
- European reality in the accessibility of education for blind and visually impaired people

Plus: two more topics selected from the Call for Papers

#### **21<sup>st</sup> September**

##### Workshops:

- Accessibility and IT
- Accessibility and Language
- Accessibility and Mobility
- Accessibility and Learning Environment
- Accessibility and Organisational Environment
