

NCBI's Jobs in Jeopardy Programme

Experiencing sight loss while in employment?

✓ **Workplace Adaptations**

Depending on the level of your vision loss and the type of job you have, you may need your workplace to be adapted, or updated with special equipment. With NCBI's assistance, assess the "essential functions" of your job step-by-step, and consider how each problem or barrier can be resolved in conjunction with your employer.

✓ **Job Retention Steps**

It is normal not having answers to all of the questions! Our Employment, Training & Academia Team can help you and your employer to understand the steps that may be needed (e.g. assistive technology assessment & training). We can also help familiarize you with different supports available, such as Reasonable Accommodation Fund and Workplace Equipment Adaptation Grant.

✓ **Mobility Assessment**

If you are having difficulties getting to and from work or moving around your job site, NCBI mobility trainer can offer tips and advice in order to orient yourself within the workplace and travel independently to and from your place of work.

About NCBI

Inspired by the determination to overcome any obstacle, NCBI transforms the lives of people who are blind or vision impaired.

We offer timely information and support, relevant technology and innovative programmes to sustain those with a vision impairment in education, in the workplace, and in wider society.

When it comes to employment, remember: assistive technology and an accessible workplace can allow you to do your job without difficulty!
